How to Read a Brand

In the Barber County Brand Book, brands are indexed alphabetically according to last name of brand owner. It is important to remember that these are not all state registered brands. If you wish to register your brand and be documented by the Kansas Department of Agriculture, you will need to contact the Kansas Department of Agriculture.

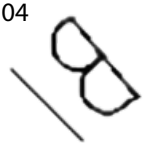

Brands are typically read from left to right, then top to bottom. The letter in the bottom of the submission represent the position on which the brand is located. For instance, LH– Cattle stands for left hip in cattle. Listed below are the six positions recognized for branding in Kansas:

RSh- Right Shoulder	LSh– Left Shoulder
RR– Right Rib	LR– Left Rib
RH– Right Hip	LH– Left Hip

Beneath the brand location and species is either freeze brand or hot brand, depending on what the brand owner uses. Additionally, some submissions have ear notches that are included under the freeze brand/hot brand line.

The use of legible, registered livestock brands will aid in suppressing cattle rustling and help return missing cattle in Barber County and surrounding area. If you wish to be a part of the next Barber County Brand Book, please fill out and return the brand application located at the back of this book to the Barber County Extension Office.
